

PROGRAMS

Massé World focuses on the person, the wellbeing of our members and our communities. To that end, we have developed programs that aim to improve the quality of life of those with albinism and vitiligo, as well as promote their full enjoyment of life. These programs address self-care and are designed to boost self-acceptance, self-esteem, and eliminate the impact of stigmatization.

SCHOLARSHIP

Scholarship Program allows children suffering from albinism or vitiligo to achieve their educational goal, whether studying in a traditional classroom setting or online due to the medical stigmatization caused by their conditions.

SCHOOL SUPPLIES ASSISTANCE

School Supplies Assistance Program eases the stress related to back to school. With this program, we provide school supplies, such as notebooks, binders, printing papers, pencils etc. to school age children within our demography.

MEDICAL ASSISTANCE

Medical Assistance Program allows those in need of medical assistance to receive referrals, financial assistance to address their medical needs, and other supplies like sunscreen, eyeglasses, etc. This is particularly true in third world countries

MALARIA ERADICATION

Malaria Eradication (partnership program) provides resources, education, mosquitoes repellents and protective gears, and medical access resources and treatment, to rural communities.

SPEAK OUT CAMPAIGN

Speak Out Campaign is a program design to address the mental health of those affected with albinism and vitiligo, as well as communities in rural areas.

FOOD ASSISTANCE

Food Assistance Program allows us to provide assistance to families affected by hunger and lack of potable water. (International Outreach Program).

Massé World is committed to changing the way the world looks at albinism or vitiligo. Our aim at Massé World is not to draw attention to the physical aspects of individuals affected by albinism or vitiligo, but to help them achieve a full integration in society by highlighting their inner person and their achievements. We do not aim to emphasize the conditions as we believe that they continue to maintain the stigmas which currently exist in society. Rather, we seek to educate the community, and more importantly, empower the individuals so they will view their condition, not as a roadblock that prevents them from being who they want to be, but merely as a condition that does not determine or limit their abilities or future.
